In re: K269GF, El Paso, TX
BPFT-20150727AAU
Facility ID # 156979

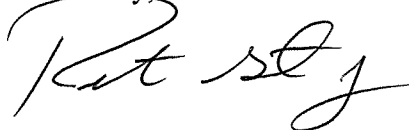

Dear Applicant:

This refers to the above-captioned application for a new FM translator station in South Parde Island, Texas.

Our review of the application has revealed that the proposal violates Sections 2.1.1 of the Agreement Between the Government of the United States of America and the Government of the United Mexican States Relating to the FM Broadcasting Service in the Band 88-108 MHz. Section 2.1.1 requires that the proposed 34 dB μ interfering contour can not overlap with the 60 dB μ protected contour of Mexican FM allotments and assignments. The proposed translator is approximately 106.2 kilometers from allotment for Las Palom Ch, MX on Channel 269B. The Mexican station's protected contour extends 65 kilometers. The attached map illustrates that the proposed 34 dB μ interference contour overlaps with the Mexican's protected contour. This violation was not addressed.

Accordingly, Application BPFT-20150727AAU IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

for James D. Bradshaw
Deputy Chief
Audio Division
Media Bureau
