In re: K208BC, Palmer, AK  
BPFT-20160201AFH  
Facility ID # 807

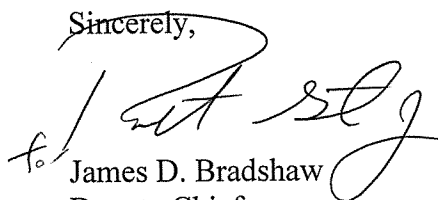

Dear Applicant:

This refers to: (1) the above-captioned application for K208BC, Palmer, Alaska.

An engineering study has revealed the application violates 47 C.F.R. § 74.1204(c)(2) with respect to KVRP(FM), Sutton, Alaska. Section 74.1204(c)(2) states that "an application for a change in the authorized facilities of an FM translator station will be accepted even though overlap of field strength contours would occur with another station in an area where such overlap does not already exist if the area of overlap with any other station would not increase." The proposed 40 dBu interfering contour increases overlap with KVRP(FM)'s protected contour therefore will be dismissed.

In light of the above, the application BPFT-20160201AFH is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division
