Facility Identification Number: 21076
Special Temporary Authority (STA)
BSTA-20160412AAN

Dear Licensee:

This is in reference to the request filed April 12, 2016 on behalf of Educational Media Foundation ("EMF"). EMF explains that it recently purchased FM translator W277AH (assignment consummated February 29, 2016). During an inspection, EMF found this translator to be operating with different parameters than specified on the translator license, and provided those parameters in this STA request. EMF requests authority to continue operating the translator with the errant facilities but at reduced power (so as not to exceed the licensed coverage area), until corrective changes can be made. EMF will file a construction permit application on FCC Form 349 for a coordinate corrections and perhaps other changes.

The STA IS GRANTED for a period of 180 days; translator W277AH may operate as described in the STA request. Please note that the grant of this STA does not imply that a construction permit application will be found acceptable for filing. EMF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 17, 2016**.

Sincerely,

Dale Bickel
