Dear Sirs:

My technical consultant, Don Davis, filed an assignment application for each of these translators on March 17, 2016. I never saw the final agreement as I had asked to do and have decided not to sell either of these translators at this time, I notified Don Davis, who was also the proposed assignee of the translators, of my decision in writing. I deleted these assignment applications at the CDBS site on the FCC website. I am also sending this letter as a back up to make sure these applications were indeed deleted in order that I maintain ownership.

Thank you.

Maria Candelaria
