Re: Channel 25, REDDING, CA
BDISDTL-20091214AEX, K33HH
Facility ID: 49529

Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility displacement justification does not comply with the Commission's displacement application rules. Specifically, based on our interference analysis, your present license facility predicted to receive interference from KRCR, to less than 2 percent of the K33HH service population.

You are hereby required to amend your application, within 30 days from the date of this letter, to submit an engineering showing demonstrating that your station is causing or receiving actual or predicted interference from a full power DTV station more than two percent of the K33HH service population. Failure to do so may result in the dismissal of your application

Sincerely

A handwritten signature in black ink, appearing to read "Hossein Hashemzadeh", written over a horizontal line.
