RE: Cancellation of broadcast license for WZTQ, facility# 54521

Dear Mr. Nguyen:

Please cancel the broadcast license of radio station WZTQ, facility#54521 in Centre, AL.

This station is no longer a viable operation due to many factors; some of which are: The station is a daytime only AM and its loss of nighttime signal has hindered the operations of this station for many years now; the major cause of this course of action is our loss of the land where the tower and studio building was previously located. With the loss of that real estate, the facility is now off the air and is in such a position that it cannot economically be rebuilt and have a fair chance of survival. We have attempted to sell the license with no success, so we are now forced to make this final move in the life of WZTQ.

With my signature, I certify that I am Ed Smith, President of Joy Christian Communications, Inc. and that I have the authority to make this request before the FCC.

Thank you for your consideration and action in this matter.

In Our Master's Joyful Service,

I Remain,

Ed Smith
Joy Christian Communications, Inc.
