Good Afternoon Art,

Please find the corrected FCC tower registration data for # 104433. All of the data agrees with the current KYCC engineering amendment on file.

Also, please note that the antenna pattern information is correct as being rotated 1.0 degree azimuth.

Additionally, the main studio is well within the predicted f(50/50) 70-dbu contour relative to the application on file.

Please give me a call if you may have any questions or would like to discuss the above information.

Respectfully Submitted

*W. Richard Green / 5-31-06*
