Re: KRVL (FM), Kerrville, TX  
Foster Charitable Foundation, Inc.  
Facility Identification Number: 25380  
Special Temporary Authority  
BSTA-20160517AAS

Dear Licensee:

This is in reference to the request filed May 17, 2016, on behalf of Foster Charitable Foundation, Inc. ("FCF"). FCF requests a modification of the Special Temporary Authority granted January 13, 2016 to operate a temporary facility following lightning damage to the station's licensed facility. FCF expects to file a construction permit application for a new permanent site in the near future.

The modified STA IS GRANTED. FCF may operate KRVL with the following temporary facilities:

Geographic coordinates:	30° 03' 51" N, 99° 08' 16" W (NAD 27)
Channel	232 (94.1 MHz)
Effective radiated power:	0.5 kW (H&V) circularly polarized,
omnidirectional	
Antenna height:	
above ground:	91 meters
above mean sea level:	674 meters
above average terrain:	108 meters
Antenna Structure registration No.:	1035252

FCF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. FCF must notify the Commission when licensed operations have resumed,

**This authority expires on November 29, 2016.**

-----

**STA Advisory:** Section 309(f) of the Communications Act of 1934, as amended, authorizes the Commission to grant STA in cases of "extraordinary circumstances requiring temporary authorizations in the public interest and when delay in the institution of the temporary operations would seriously prejudice the public interest." However, Section 309(f) is not a means by which a licensee/permittee may circumvent established processing procedures which require the filing of an application, nor is it a means by which a broadcaster may enhance his facility or make operation more convenient for the broadcaster. Stations operating with less than licensed facilities under temporary authorities can be viewed as receiving the benefit of a larger protection area than that in which they are currently providing service.

Accordingly, Special Temporary Authorities by nature are to be temporary and are not intended for extended use. Licensees of stations operating under temporary authorities are reminded that timely restoration of permanent facilities is the responsibility of the licensee and should be undertaken expeditiously. Any request for extension of special temporary authorities carries an increased burden with each subsequent request.

Therefore, requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Sincerely,

Dale Bickel
