Re: Radio License Holding CBC, LLC (RLHC)  
KKAT(AM), Salt Lake City, UT  
Facility Identification Number: 11232  
Special Temporary Authority (STA)  
BESTA- 20160516ACH

Dear Mr. Denning:

This is in reference to the request filed on May 16, 2016. RLHC requests an extension of the STA granted on August 22, 2013, to operate station KKAT(AM) with reduced power daytime using the nighttime transmitter at reduced power due to failure of its 10 kW daytime transmitter.<sup>1</sup> In support of the request, RLHC stated that it has begun the process to have a used 10 kW transmitter installed on site after any required repairs/updates by the manufacturer.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and station KKAT(AM) may continue to operate during daytime hours with reduced power. RLHC must

---

<sup>1</sup> KKAT(AM) is licensed for ND operation on 860 kHz with 10 kW (D), 3 kW (CH), and 0.196 kW (N).

use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. RLHC must submit an e-mail or letter to our staff before the expiration date shown below to certify the station has resumed licensed operations (per BZ-20010620AAT) with negligible changes, since we anticipate all steps should be completed before that date.

This authority expires on **December 17, 2016.**

Sincerely,

Joseph Szczesny, Engineer  
Audio Division, Media Bureau
