Request for Correction of FCC Database

Dear Ms. Dortch:

It has come to our attention that the FCC engineering database contains incorrect information with respect to the referenced station. Specifically, the database shows only horizontal polarization whereas the current license (which has been in effect since 1984 without alteration) correctly shows the polarization as circularized, which in fact conforms with station operation. We attach copies of the current license (BLED-19800613AA) and database page for your reference.

Thank you for your attention to this matter. Should any further information be needed, please communicate with undersigned counsel.

Sincerely,

Peter Gutmann
