Hallandale Beach, FL 33009

Re: Urban Radio Licenses, LLC (URL)  
WVNA(AM), Tuscumbia, AL  
Facility Identification Number: 19457  
Special Temporary Authority (STA)  
BESTA-20160608HTJ

Dear Mr. Wagner:

This is in reference to the request filed on June 8, 2016. URL requests further extension of the STA originally granted on August 9, 2010, and most recently modified on December 10, 2015, to operate from an alternate site due to loss of the licensed WVNA/WLAY transmitter site.<sup>1</sup> In support of the request, URL stated that it plans to file the required FCC Form 301 application or transfer ownership of the station to a new licensee (that can do so).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is GRANTED, and station WVNA(AM)

---

<sup>1</sup> WVNA(AM) is licensed for operation on 1590 kHz with 5 kW ND day and 1 kW DA night, while WLAY is licensed for 1 kW unlimited ND operation on 1450 kHz at the same licensed site, and both are now operating via a technical STA at two different sites.

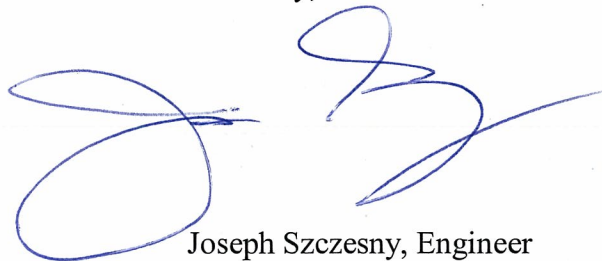

may continue to operate with the following facilities:

Geographic coordinates	34° 40' 27" N, 87° 42' 48" W (NAD 1927)
Frequency	1590 KHz
Hours of operation	Daytime only
Operating power	Not to exceed 2 kW
Antenna type	Existing FM tower with vertical wire feed
Radiator height	87.8° (46 meters)
Antenna efficiency	304.2 mV/m/kW/km
Overall height	46 meters

It will be necessary to further reduce power or cease operation if complaints of interference are received. URL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. We anticipate that URL will file the required FCC Form 301 application in the upcoming months, or obtain assistance from the new proposed owner if needed, since both co-owned stations WVNA and WLAY have been unable to resume licensed operations during the past six years.

This authority expires on **January 6, 2017**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a long horizontal stroke extending to the right.

Joseph Szczesny, Engineer
