**PETITION FOR RECONSIDERATION OF FCC'S DISMISSAL OF
SINCERE SEVEN'S LPM APPLICATION**

Sincere Seven ('S7') hereby posits this petition for reconsideration, determined by the Federal Communications Commission on May 10, 2016 published by the Audio Division of the Media Bureau ("Bureau"), reference 1800B3-PPD, in above captioned application ("Application") by S7 ("Applicant") for a new construction permit for a new Low Power FM station in Washington, D.C.. The Petitioner herein addresses the determination by show and proof that the conclusion reached was erroneous and the action unwarranted, and Sincere Seven herein requests a reversal of the fatal determination.

Sincere Seven strongly contends that gross assumptions, aside from presented evidence and statutory law, are foundational elements in the determination of The Commission. We shall show cause for reversal in this filing.

Real Party In Interest
Sincere Seven was—and is—the Interested Party in the Submission of Our LPFM Application

Sincere Seven recognizes its greatest challenge is deconstructing the falsehood that another entity is the “real party to the application.” Sincere seven submitted the application in November 2013 with one of its agents, William Tucker, as the application signer, that in and of itself does not exempt us from ownership eligibility.

The Commission asserts that the existence of a fiscal sponsor agreement with the

entity we set to manage the station—WOOK-LP—we owned is neither deceptive nor illegal. The apparent motives of Mr. Tucker (to wrest control of the station) can only be proven by his actions of which there is evidence. As owners and licensees, we arrested Mr. Tucker's actions and responsibly extricated him from our community-based project. All of this is evidenced by the December 28, 2015 filing to The Commission—of which it says it had not received. Of course, that filing was indeed delivered to The Commission with supporting evidence. We also showed cause in the DC Superior Court—with this same evidence we presented to The Commission—and the Court ruled in our favor regarding Tucker's dismissal and his false claims of ownership. Why The Commission is electing to ignore facts is mystifying, but we suspect the history of The Commission's relationship with urban-centered applicants gives some explanation. .

Tucker claims to have had a non-profit at the time we signed with him to manage WOOK-LP (note a different name from the purported non-profit he claimed). During the year 2015, Mr. Tucker was asked by our Board of Directors to provide proof of his claims to aptly manage a radio station, including any co-managers. He failed to do so, culminating in a face-to-face meeting with S7's Board of Directors in December 2015 where he was subsequently dismissed. His dismissal did not affect our ownership in any way and is a contrived speculation as concluded in The Commission's determination.

Any allegation that Sincere Seven acted as "strictly a fiduciary" is inaccurate, at best. The term "strictly" is intentionally misleading and patently false. Sincere Seven had, from the initiation of the partnership with one, William Tucker, to create a platform for community voices, evidenced by our well documented directives and requests to/of Tucker (as General Manager), to Perry Redd (as S7's intermediary and overseer of the project) and our numerous communiqués regarding WOOK-LP operation. S7's day-to-day operation wasn't initially our defined role—as it is not today—in the operation of WOOK-LP.

It is relevant and necessary that the arbiters of this controversy distinguish the difference between speculation and reality; though Radio One—and others with latter day claims—make vaporized scenarios of our intent, the reality—and more important, legality—of the matter is Sincere Seven is both the fiduciary and owner of WOOK-LP, notwithstanding our highest standard of care at either equity or law regarding the affairs of WOOK-LP, both for its interests and that of Sincere Seven.

Early on, we designated our appointed General Manager to execute the operation of our station (WOOK-LP)—on behalf of Sincere Seven. Today, there is a different

General Manager, and tomorrow, there may be a different GM. No other outside entity will dictate—or assert—how we choose to operate our project(s). A court in the district where we operate has adjudicated the issue of “ownership” by issuing a permanent injunction (initiated October 14, 2015; see exhibit 1, *S7 v Tucker-Preliminary TRO*) against a co-petitioner in this matter. This is a matter of fact and not speculation.

We would not have invested our time, attention and/or resources regarding the legal definition of WOOK-LP had we not been the “interested party.” The Commission accepted as fact, the existence of William Tucker’s claimed non-profit—without a shred of supporting evidence. Affidavits from co-conspirators, does not a non-profit make. At no time, did Mr. Tucker divulge the existence of any of the actors in his purported non-profit (S7 has minutes from Board meetings Tucker attended and reported).

The assertion of The Commission that Sincere seven was subversive by not revealing the existence of a Fiscal Sponsor Agreement between S7 and another entity does not bar ownership of an LPFM. The Commission simply made a new rule in this moment. It is absent from the CFR that a non-profit notify The Commission of such a management model. This is an unfair bar to erect.

The assertion of The Commission falls outside of the prohibition of any applicant from obtaining a low-power FM license, only if the applicant has engaged in any manner in the unlicensed operation of any station in violation of section 301 of the Communications Act of 1934 (47 U.S.C. 301). Section 301 states:

It is the purpose of this chapter, among other things, to maintain the control of the United States over all the channels of radio transmission; and to provide for the use of such channels, but not the ownership thereof, by persons for limited periods of time, under licenses granted by Federal authority, and no such license shall be construed to create any right, beyond the terms, conditions, and periods of the license. No person shall use or operate any apparatus for the transmission of energy or communications or signals by radio (a) from one place in any State, Territory, or possession of the United States or in the District of Columbia to another place in the same State, Territory, possession, or District; or (b) from any State, Territory, or possession of the United States, or from the District of Columbia to any other State, Territory, or possession of the United States; or (c) from any place in any State, Territory, or possession of the United States, or in the District of Columbia, to any place in any foreign country or to any vessel; or (d) within any State when the effects of such use extend beyond the borders of said State, or when interference is caused by such use or operation with the transmission of such energy, communications, or signals from within said State to any place beyond its borders, or from any place beyond its borders to any place within said State, or with the transmission or reception of such energy, communications, or signals from and/or to places beyond the borders of said State; or (e) upon any vessel or aircraft of the United States (except as provided in [section 303\(f\) of this title](#)); or (f) upon any other mobile stations within the

jurisdiction of the United States, except under and in accordance with this chapter and with a license in that behalf granted under the provisions of this chapter.

S7 has not violated section 301. This determination, as the others is made in error.

***Change In Control
Sincere Seven Never Intended, Nor Intends to "Re-Assign It's Construction Permit" to Anyone, as opposed to the absurd allegation posed by Any Opposing Party***

In the January 12, 2016 response filed by Radio One, they make an assertion that is non-existent. Though we cannot know for sure, their intention solely appears to be obstruction. To the point they attempt to make, Sincere Seven applied for the LPFM license—with the "expertise" of purported radio veteran, William Tucker. His aid and assistance was a "partnership" as is the case with many non-profits; these brands of partnerships are what defines "community." There is no denial in that on our part.

The concept of community radio is neither new, nor novel, so to assert that William Tucker was the "end all" to our efforts is erroneous, at best. His desire to partner with Sincere Seven in the application to The Commission, changes nothing about the process, or result. With or without Mr. Tucker—or *anyone else*—WOOK-LP is the call-sign for the FM radio station (as it very well could be something else) and is a project of Sincere Seven. *The radio station is not Sincere Seven.* Our non-profit organization has been engaging in charitable and educational community activities since our founding in 1999.

There is—nor was there ever—any intention in "transferring," "re-assigning" or "handing-over" any aspect of this community-based radio station as sanctioned by The FCC. Sincere Seven was acutely aware and apprised of the rules for ownership as prescribed by the FCC, though that knowledge was an evolutionary process. It is not unusual that we relied on Mr. Tucker as our "resident expert" to inform us on protocols, processes and procedures of the FCC. What we were not apprised of is the filings and communications Mr. Tucker had with the FCC; we've come to learn that that was his intention. We mandate that the WOOK station General Manager keep those FCC rules in the station at all times for education, review and compliance purposes. Simply because obstructing parties create thin-air scenarios don't mean they exist.

Mr. Tucker claims he "owned" a nonprofit organization prior to partnering with us in 2013; we never saw, nor did he present to us, any evidence supporting that. His word was the sole evidence of such a claim. New people claiming it at this late juncture

doesn't make it so. Furthermore, if he did "own" a nonprofit, he would not have approached Sincere Seven to be a part of the LPFM mandate. We saw the same vision as William Tucker—a community radio station that amplified voices of community residents—only we had legitimate means of carrying out that mission. We applied as us—Sincere Seven—and intend to broadcast as Sincere Seven, under the call sign WOOK-LP. If we must change our call sign as a remedy, then so be it, but it doesn't change our licensing requirements. Any other claims are purely conjecture by opponents.

As a matter of record, we suspected a host of adverse issues regarding Mr. Tucker and begun an intense inquiry/investigation beginning November 2014. One turned rock led to another, culminating in the termination of our relationship with Mr. Tucker. For the sake of the immaterial arguments place before The Commission by Mr. Tucker, we attach an accounting of the management ineptitudes that led to the remedial actions on our part to ensure the strong governance that Sincere Seven is accustomed to.

We wholly admit that entrusting William Tucker to execute the administration of our station could be seen as error (as we did), we—as an organization—collectively took notice of his erroneous acts, learned of his selfish intent, and took remedial action. We never intended for The Commission to be engrossed in the administrative wrangling of our organization, but Radio One—now with the assistance of Mr. Tucker—have sought to further obstruct our efforts. Our fiscal sponsorship agreement with Mr. Tucker was to ensure responsible administration of the radio project. For past and present projects that carry a fiduciary responsibility where we partner with community entities, we reserve the fiscal sponsor trend to ensure sound governance, all the while, we own our projects. The boilerplate nature of the fiscal sponsor agreement (FSA), doesn't negate the award by The Commission, nor the intent and objective of Sincere Seven.

Mr. Tucker tendered to us his desire to manage a station and brought an idea of what he tried in the past with him. Unfortunately, his inept managerial skills brought about a different result—*regarding him*—but did not deter the direction, intent nor purpose of Sincere Seven's community objectives. For this simplistic reason, we request The Commission to disregard this point of opposition.

Criminal Conviction

In all appearances, compliance with Section 632 of the "Local Community Radio Act of 2010," convictions irrelevant to the operation, management and ownership of an LPFM station are moot at best, and should not even be entered into the record of the

application. Convictions having a bearing of said radio operation and ownership should be rightly entered—and scrutinized. Barriers to community organizations seeking to promote the public interest have historically and duly documented undue obstacles placed upon groups, organizations and people of color to participate in American industrial pursuits. Such barriers are, of recent, being addressed by the current federal executive administration, particularly at the US Justice Department regarding the prosecution, legislations, conviction and sentencing of low-level drug offenders in this country. Nonetheless, full disclosure and transparency is a policy embraced by S7 since its inception and partly an element in it's founding, and thus complied with The Commission in its December 29, 2015 filing.

Furthermore, to underscore S7's response here, Section 632. (a) is clear:

The Federal Communications Commission shall modify the rules authorizing the operation of low-power FM radio stations, as proposed in MM Docket No. 99-25, to—

(2) prohibit any applicant from obtaining a low-power FM license if the applicant has engaged in any manner in the unlicensed operation of any station in violation of section 301 of the Communications Act of 1934 (47 U.S.C. 301).

It appears that Section 632 is not the authority governing this demand from The Commission, but rather, provisions within the Anti-Drug Abuse Act of 1988 which prompt The Commission to include questions 6 and 7 in the application process:

6. *Character Issues. The applicant certifies that neither the applicant nor any party to the application has or has had any interest in, or connection with:*

- a. any broadcast application in any proceeding where character issues were left unresolved or were resolved adversely against the applicant or party to the application;*
- or*
- b. any pending broadcast application in which character issues have been raised.*

7. *Adverse Findings. The applicant certifies that no adverse finding has been made and no adverse final action has been taken by any court or administrative body as to the applicant, any party to this application, or any non-party equity owner in the applicant, in a civil or criminal proceeding brought under the provisions of any law related to the following: any felony; mass media related antitrust or unfair competition; fraudulent statements to another governmental unit; or discrimination?*

If the answer is "No," attach as an Exhibit a full disclosure concerning the persons and matters involved, including an identification of the court or administrative body and the proceeding (by dates and file numbers), and a description of the disposition of the matter. Where the requisite information has been earlier disclosed in connection with another application or as required by 47 C.F.R. Section 1.65, the applicant need only provide: (i) an identification of that previous submission by reference

to the file number in the case of an application, the call letters of the station regarding which the application or Section 1.65 information was filed, and the date of filing; and (ii) the disposition of the previously reported matter.

Sincere Seven here points out that "all convictions" requested for full disclosure would be reviewed, but relegated to communications broadcasting and the communications industry and commerce. Anything other may be construed as a veiled attempt to create undue barriers (for whatever reason) for an organization (of whatever persuasion) to participate in a governmental public service.

Moreover, an acute look at the governing authority, are the sentencing provisions which specifically outline the bars. The sentencing provisions of the Anti-Drug Abuse Act of 1988 are as follows:

Drug trafficker.

Any individual convicted of a federal or state offense consisting of the distribution of a controlled substance, as defined by the Controlled Substances Act (21 U.S.C. 801 et seq.):

** On the first conviction, is ineligible for any or all federal benefits for up to 5 years, at the discretion of the court.*

Drug possessor.

Any individual convicted of a federal or state offense involving the possession of a controlled substance:

On the first conviction, receives one or a combination of the following three sentences, at the discretion of the court: (1) is ineligible for any or all federal benefits for up to 1 year

The intent of the Congress of 1988 was to create punishments so harsh as to serve as a deterrent to the commission of said crimes; history has proven racial disparities and unequal application of the law are what resulted. This law and its provisions created "denials" to participate in the American society such as:

Business Administration loans or the right to contract with the Federal Government; and as researchers, they can lose medical, engineering, scientific, and academic grants.

Some benefits are excluded from the denial process. These exclusions include public housing, welfare, and drug treatment benefits, as well as benefits earned through financial contributions or services to the Federal Government, such as Social Security, health, disability, and veterans' benefits. Also, the courts may choose to restore benefits for specific reasons...

Thus, S7 finds it imperative to clearly unearth where this inquiry appears

to be going; here lies the definition in section (d) of the statute as used in this section—

(1) the term "Federal benefit"—

(A) means the issuance of any grant, contract, loan, professional license, or commercial license provided by an agency of the United States or by appropriated funds of the United States; and

(B) does not include any retirement, welfare, Social Security, health, disability, veterans benefit, public housing, or other similar benefit, or any other benefit for which payments or services are required for eligibility; and

(2) the term "veterans benefit" means all benefits provided to veterans, their families, or survivors by virtue of the service of a veteran in the Armed Forces of the United States.

Herein, the question posed to The Commission, is, in entertaining Radio One's re-litigation of a previously disclosed fact—Redd's previous convictions—doing so in error. Reaching an adverse conclusion on this issue is reminiscent of the Jim Crow era and appears to be intended to deny a license to a duly qualified, community-based applicant.

Failure to Respond

Sincere Seven herein contends that the determination of The Commission stating that S7 "failed to respond" is reached in error. Being this assertion is the prima facie issue—rendering all else moot—must be proven erred before any other issue becomes matter at hand.

Sincere Seven delivered it's response to the November 30, 2015 request within the 30-day prescribed response period to The Commission, both by US Mail (see exhibit 1; One Regular mail and One Certified Mail USPS Receipt) and via the outdated CDBS database (see exhibit 2, CDBS screenshot of submission and exhibit 3, filing of Form 318 via CDBS) provided by The Commission. Thus, proof of both exists.

Sincere Seven relies on US Code when delivering required documents to federal agencies. 26 USC § 7502-Timely Mailing Treated as Timely Filing:

(a) General rule

(1) Date of delivery -If any return, claim, statement, or other document required to be filed, or any payment required to be made, within a prescribed period or on or before a prescribed date under authority of any provision of the internal revenue laws is, after such period or such date, delivered by United States mail to the agency, officer, or office with which such return, claim, statement, or other document is required to be filed, or to which such payment is required to be made, the date of the United States postmark stamped on the cover in which such return, claim, statement, or other document, or payment, is mailed shall be deemed to be the date of delivery or the date of payment, as the case may be.

(2) Mailing requirements-This subsection shall apply only if—

(A) the postmark date falls within the prescribed period or on or before the prescribed date—

(i) for the filing (including any extension granted for such filing) of the return, claim, statement, or other document, or

(ii) for making the payment (including any extension granted for making such payment), and

(B) the return, claim, statement, or other document, or payment was, within the time prescribed in subparagraph (A), deposited in the mail in the United States in an envelope or other appropriate wrapper, postage prepaid, properly addressed to the agency, officer, or office with which the return, claim, statement, or other document is required to be filed, or to which such payment is required to be made.

(b) Postmarks- This section shall apply in the case of postmarks not made by the United States Postal Service only if and to the extent provided by regulations prescribed by the Secretary.

(c) Registered and certified mailing: electronic filing

(1) Registered mail-For purposes of this section, if any return, claim, statement, or other document, or payment, is sent by United States registered mail—

(A) such registration shall be prima facie evidence that the return, claim, statement, or other document was delivered to the agency, officer, or office to which addressed; and

(B) the date of registration shall be deemed the postmark date.

The federal mail rule applies to Sincere Seven, as with every American. The non-compliance determination of The Commission was reached in error.

Re S7's Board of Directors

The issue raised regarding our Board of Directors is an unfair bar, being that as a community-led organization, by our Articles of Incorporation; our non-profit rotates members of the Board in staggered two-year terms. Many non-profits across this country operate in a similar manner. This is not an unusual mode of management and operation. Holding this true community organization to such a strict Board composition (specifically in the instance of one of Board members passed away in 2015)—for the period of an 8-year license is highly unreasonable. Our Board members are, and always have been, all volunteers and we reach out to our community for others to join and replace our outgoing members. That's what real community organizations do.

The allegation that our Board doesn't reside within a 10-mile radius of our tower location is false. We submitted our latest Board composition to The Commission via CDBS on July 15, 2015 (Modification of Permit Application), at the direction of an FCC Bureau Media employee. Our active Board composition is as follows:

Conclusion

Sincere Seven contends that The Commission determined in error the conclusion of non-compliance. In order to address the other issues determined by The Commission, the determination must be voided, otherwise all else is moot. Sincere Seven would gladly provide any additional information necessary to support any defense given.

We find it highly suspicious that The Commission received **ALL** of our previous—and even subsequent—filings, but at this most critical stage, purports not to have received our response which would have allowed us to re-submit our LPFM application. Sincere Seven requests that The Commission reverse its determination on the grounds of harmful error and allow us to re-submit our form 318.

Respectfully Submitted,
