Re: Genesis Communications I, Inc. (GCI)  
WHOO(AM), Kissimmee, FL  
Facility Identification Number: 54573  
Special Temporary Authority (STA)  
BESTA-20160613ABJ

Dear Mr. Maduri:

This is in reference to the request filed on June 13, 2016. GCI requests an extension of the STA granted on March 26, 2015, to operate ND using the existing WAMT(AM) site due to the sale of the licensed WHOO(AM) transmitter site.<sup>1</sup> In support of the request, Genesis stated that BP-20140721AAY remains pending before the Commission.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA is hereby GRANTED, and WHOO(AM) may continue to operate with the following facilities:

Geographic coordinates	28° 28' 00" N, 81° 22' 29" W (NAD 1927)
Frequency	1080 KHz
Hours of operation	Unlimited
Operating power	1.5 kW (day), 0.011 kW (night)
Antenna type	Existing WAMT tower

---

<sup>1</sup> WHOO(AM) is licensed for DA operation on 1080 kHz with 19 kW day, 0.19 kW night, and 10 kW critical hours, and the BP-20140721AAY proposes three new DA patterns at the WAMT(AM) site.

ASRN  
Antenna efficiency

1257632  
277.3 mV/m

It will be necessary to further reduce power or cease operation if complaints of interference are received. WHOO(AM) must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **January 14, 2017**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final flourish.

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
