In re: Genesis Communications I, Inc.
WHOO(AM), Kissimmee, FL
Facility Identification Number: 54573
File No. BL-20070116AEF
Program Test Authority (PTA)

Dear Mr. Imlay:

This is in reference to the application for license filed by Genesis Communications I, Inc. (GCI) to cover construction permit BMP-20050728ACY to change the day and night patterns (and use currently licensed daytime pattern as proposed critical hours pattern); the February 13, 2007 letter denying PTA due to incomplete filing (missing full proof and current distribution data); and the March 30, 2007 amendment.

Authority is granted WHOO(AM) to commence **program tests** in accordance with Section 73.1620 of the Commission's Rules, the attached PTA authorization, and BMP-20050728ACY1080 to operate on 1080 kHz with a daytime nominal power of 19.0 kW, a nighttime nominal power of 0.19 kW nighttime, a daytime input power of 20.0 kW, a nighttime input power of 0.205 kW, a daytime common point current of 19.98 amps, and a nighttime common point current of 2.02 amps. (No change to currently licensed daytime operating parameters used for new critical hours operation as taken from last license, BZ-20000503ABI.)

This authority expires on August 2, 2007.

Sincerely,

Son Nguyen, Supervisory Engineer
Audio Division
