Re: Hi-Favor Broadcasting, LLC (HFB)
KSDO(AM), San Diego, CA
Facility Identification Number: 51166
Special Temporary Authority (STA)
BESTA-20160719AAL

Dear HFB:

This is in reference to the request filed on July 19, 2016. HFB requests an extension of the STA granted on January 29, 2016, to operate station KSDO(AM) with a temporary drop wire antenna at the KLSD(AM), San Diego, California (ID# 34452) transmitter site due to loss of the licensed site.¹ In support of the request, HFB states that additional time is needed to consider all options before filing the required FCC Form 301 application to propose a new permanent facility in order to obtain a new license.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is GRANTED, and station KSDO(AM) may continue to operate with the following facilities:

Geographic coordinates	32° 43' 51" N, 117° 04' 59" W (NAD 1927)
Frequency	1130 KHz
Hours of operation	Unlimited

¹ KSDO(AM) is licensed for DA operation on 1130 kHz with 10 kW (day and night).

Operating power	2.5 kW
Antenna type	Drop wire antenna (hung from Phillystran tower guy rope)
Antenna radiator height	64° (47.2 ms)
Antenna efficiency	239.5 mV/m/kW at 1 km

It will be necessary to further reduce power or cease operation if complaints of interference are received. KSDO(AM) must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 11, 2017**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
