Re: KRGH (FM), Indian Springs, NV  
Univision Radio License Corporation  
Facility Identification Number: 11614  
Special Temporary Authority  
BESTA-20160805ABE <sup>1</sup>

Dear Licensee:

This is in reference to the request filed August 5, 2016 on behalf of Univision Radio License Corporation ("Univision"). Univision requests an extension of the February 18, 2016 Special Temporary Authority (STA) for continued operations at reduced power, until licensed operation can be restored. In license application BLH-20160211ABY (currently pending) to cover minor corrections in coordinates and heights, Univision explains that the station continues to operate at reduced power while the licensee investigates apparent intermodulation interference affecting Air Force operations.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

---

<sup>1</sup> Council for Univision Radio License Corporation indicates that the STA request was mistakenly filed with the name "Univision Radio Florida, LLC". We accept this emendation.

Accordingly, the request for STA extension IS HEREBY GRANTED. Station KRGH may continue to operate at reduced power. Univision must amend license application BLH-20160211ABY after operation is restored to authorized parameters. Univision must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

**This authority expires on February 14, 2017.**

Sincerely,
