Subject: BLH-20070511ACW - WIFX-FM - Jenkins, KY - Program Test Authority

This e-mail is in response to your license application BLH-20070511ACW, which requests issuance of automatic program test authority for WIFX-FM, Jenkins, KY.

From the exhibits in the license application, we understand that measurements have been made on colocated AM station WKVG, and that such measurements will be submitted to the Commission shortly in an application for direct power measurement. All other conditions are satisfied, according to the license application exhibits.

Consequently, by this e-mail, program test authority IS GRANTED to permit WIFX-FM to operate at an effective radiated power of 6.3 kW ERP (circularly polarized) with the facilities authorized in construction permit BPH-20040203AAC.

This authorization is being sent by e-mail in lieu of a letter for the same purpose in order to get this authority to you as soon as possible. Please print a copy of it and keep it with the station's records. The grant of this program test authority will also be noted in the FCC's CDBS database.

If there are any questions, please contact me at 202-418-2706.
