Blanketing Interference Complaints

Dear Mr. Bickel:

On behalf of Riverlodge Apartments ("Riverlodge"), and in response to the May 15, 2007 letter of BMP Austin License Company, L.P. ("BMP"), Riverlodge provides you with an update on the status of the blanketing interference issue.

During the past year, BMP has worked with Riverlodge in a very constructive and collaborative manner to resolve the blanketing interference. Specifically, BMP explored several potential technical solutions with Riverlodge's engineering consultant. Once the parties reached consensus that installation of additional bays was likely to mitigate the blanketing, BMP purchased and installed the necessary equipment. Following installation of the bays, BMP cooperated with Riverlodge in follow-up testing, including visits to particular tenants who continued to experience some interference.

At this time, Riverlodge is satisfied that its blanketing complaint has been resolved and that BMP has fully met its obligation under Section 73.318(b) of the Commission's Rules.

Please feel free to direct any further questions about this matter to the undersigned.

Sincerely,

Rosalind K. Allen
Counsel to Riverlodge Apartments
