Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed June 29, 2006, on behalf of Zeta Holdings, LLC ("ZH"). ZH requests further extension of the special temporary authority ("STA") granted to former licensee Micro Communications, Inc. on December 24, 2003, to operate Station KQMB (formerly KCFM) with reduced power.<sup>1</sup> In support of the request, ZH states that it has been advised by the U.S. Forest Service ("USFS") that operation with effective radiated power of more than 1000 watts violates a USFS site restriction and will not be permitted. ZH states that negotiations with the forest Service are continuing, and requests further extension of STA pending resolution of the matter.

Accordingly, the request for STA IS HEREBY GRANTED. Station KQMB may continue to operate with reduced power. ZH must notify the Commission when licensed operation is restored. ZH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 5, 2007**.

Sincerely,

Charles N. Miller, Engineer
