Federal Communications Commission
445 Twelfth Street, S.W.
Washington, DC 20554

RE: Capstar TX, LLC (FRN No. 0019362953)
Request for waiver of Construction Permit Expiration Date
W280EW (FX), 103.9 MHz, Ch 280, Wheeling, WV; FID No. 140908

Dear Ms. Dortch:

On behalf of Capstar TX, LLC ("Capstar"), the permittee of FM Translator Station W280EW, Wheeling, WV, (the "Station") and licensee of AM Station WBBB (AM), Facility ID 73192, Wheeling, WV, the proposed primary station specified in the pending Modification Application filed recently for the Station (BMPFT-20160129AHC), and pursuant to Section 1.3 of the Commission's rules, this will request a waiver of Section 73.3598 of the Commission's rules to permit Capstar additional time to construct the Station.

The construction permit for the Station currently expires on December 31, 2016. As noted, Capstar has filed a Modification Application under the Commission's FM Translator window to rebroadcast an AM station, which was granted on February 17, 2016. At note 36 of the *AM Revitalization First Report and Order*, the Commission states that there are approximately 1,300 outstanding construction permits for FM Translators which are scheduled to expire in 2016 and that modification applicants who participate in AM/FM Translator filing windows are encouraged to seek waivers of their construction deadlines.

The Commission has recognized that waivers would expand broadcasting opportunities for AM stations, would allow AM licensees to realize service improvements quickly and would incentivize FM translator permittees to participate in the modification

window process, thereby, providing a means to avoid the delays and administrative burdens of re-auctioning the spectrum.

All of those beneficial factors are present in the instant case. As such, a waiver of the Commission construction deadline would clearly be in the public interest with respect to Station W280EW. Capstar hereby commits to prompt construction and initiation of broadcast operations by the translator station.

In view of the above, Capstar TX, LLC requests that the Commission waive its construction deadline rule for Station W280EW and extend the construction permit expiration date for that Station to a date that is six months from December 31, 2016.

Respectfully submitted,

Capstar TX, LLC
