In re: INTERFERENCE COMPLAINT
W275BD, Greenfield, IN
BLFT-20151120AGX
Facility ID # 143744

Dear Licensee:

This refers to five interference complaints filed by Reising Radio Partners, Inc on December 5, 2016. All complaints must be resolved. Listener complaints can be filed at any time. The complaints allege that W275BD is interfering with the reception of WXCH(FM), Columbus, Indiana.

Pursuant to 47 C.F.R. § 74.1203, W275BD is required to eliminate any actual interference it causes. Therefore, it is necessary for W275BD to submit a detailed report on the attached complaint even if the complainant might have been addressed in a previous proceeding. For the complaint, the report must include: (1) the name and address of the complainant; (2) specific devices receiving the interference (i.e. type of device, manufacturer's name, model number, and serial number); and (3) any assistance provided by W275BD for each device allegedly receiving the interference and whether such interference persists. Each of the complaints must be addressed individually.

The Commission's Rules regarding FM translators restrict FM translator stations to operate strictly on a secondary basis and limit their service. Section 74.1203(a)(3) states that an FM translator station will not be permitted to continue to operate if it causes any actual radio signal interference to the direct reception by the public of the off-the-air signals of any authorized broadcast station.¹ Actual interference is based on listener complaints indicating that the signal they regularly receive is being impaired by the signal radiated by the FM translator station. Section 74.1203(b) states that if the

¹ An FM translator station creating actual radio signal interference to any authorized broadcast station is obligated to eliminate the interference, regardless of the location where the impaired signal reception occurs.

interference cannot be properly eliminated by the application of suitable techniques, the operation of the offending FM translator station shall be suspended and shall not be resumed until the interference has been eliminated.

Within thirty days of this letter, W275BD must take appropriate actions required by the provisions of 47 C.F.R. § 74.1203 to resolve all complaints of interference to fulfill its obligations. Further action on this complaint will be withheld for a period of thirty days from the date of this letter to provide W275BD an opportunity to respond. Failure to correct all complaints within this time may require W275BD to suspend operation pursuant to 47 C.F.R. §§ 74.1203(e) and 74.1232(h).

car

portable

If someone would meet you to install a frequency filter, replace your equipment or provide something else to restore your reception at no charge... how do you wish to be contacted? :

Email

If you have any additional comments, please enter them below. :

What happened to the MOJO i used to listen to? I got a snarky letter from a high-powered Washington D.C. attorney with a list of questions I was suppose to respond to while on vacation. I missed the deadline and haven't heard anything since.

Reception has been horrible since a new rap station in Indy went on air. Can only get mojo on radio when about 4 miles south of home address. Please get Mojo back for the southside of Indy.
