Re: Request for Waiver of 47 C.F.R. § 73.3598  
Edgewater Broadcasting, Inc.  
FM Translator Station K238BX, Yuma, AZ  
Facility Identifier Number: 151282

Dear Ms. Dortch:

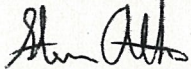

Edgewater Broadcasting, Inc. ("Edgewater"), permittee of FM translator station K238BX, Yuma, Arizona, together with Citicasters Licenses, Inc. ("CLI"), the licensee of KLSD(AM), hereby request a waiver (47 CFR §1.3 and §73.3598) of the construction deadline for the K238BX construction permit pursuant to Note 36 in the *First Report and Order, Further Notice of Proposed Rule Making and Notice of Inquiry* in MB Docket No. 13-249, *Revitalization of the AM Radio Service*, 30 FCC Rcd 12145 (2015). Note 36 states that waivers of the Auction 83 FM translator permit deadlines are "presumptively in the public interest for applicants participating in one of the modification windows, provided that the AM station licensee proposing to use the FM translator for rebroadcasting its AM station commits to prompt FM translator station construction and initiation of broadcast operations."

K238BX has a permit that was granted as a result of the Auction 83 window filings (see BNPFT-20130314ADH), and the permit is scheduled to expire on April 8, 2017. Edgewater has separately filed a 250 mile window application (BMPFT-20160729AON) to relocate K238BX in order to rebroadcast AM station KLSD, San Diego, California. Edgewater has a rebroadcast consent agreement with CLI, licensee of KLSD. Edgewater commits to promptly constructing and initiating operation of the translator once the pending assignment application and proposed 250 mile window relocation application are granted so that KLSD can be rebroadcast as contemplated in the AM Revitalization Order.

Accordingly, Edgewater and CLI respectfully request a waiver of 47 CFR §1.3 and §73.3598 to toll the construction deadline of the permit for K238BX until six months after processing of the pending modification application filed in the 250 mile window is complete.

**Very truly yours,**

**Steven Atkin**
