Re: W242AT (FX), Williamstown, MA
University of Massachusetts
Facility Identification Number: 142211
Special Temporary Authority
BESTA-20161205ABB

Dear Licensee:

This is in reference to the request filed December 5, 2016, on behalf of University of Massachusetts ("UM"). UM requests a third extension of the Special Temporary Authority (STA) granted June 10, 2015 to operate FM translator W242AT from a temporary, one bay, vertically polarized antenna, at 0.030 kW ERP, mounted on a different part of the building roof where the licensed facility is located. The initial STA was granted to allow renovations to the roof area adjacent to the licensed installation. However, UM now states that roof repairs have been deferred to the summer/fall of 2017.

The request for STA IS HEREBY GRANTED. Translator W242AT may continue to operate as described in STA request BSTA-20150604ABG. UM must notify the Commission when licensed operation is restored. UM must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on June 12, 2017.

Sincerely,

Dale Bickel
Senior Engineer
Audio Division
Media Bureau
