Re: Radio License Holding CBC, LLC (RLHC)
WKY (AM), Oklahoma City, OK
Facility Identification Number: 23418
Special Temporary Authority (STA)
BESTA-20161213ABY

Dear Mr. Denning:

This is in reference to the request filed on December 13, 2016. RLHC requests a final extension of the STA granted on January 25, 2011, to continue operating with parameters at variance using the facilities specified in BP-20160610AAX.¹ In support of the request, RLHC plans to file the required FCC Form 302 license application within a matter of days.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLHC may continue to operate with parameters at variance using the facilities authorized by BP-

¹ WKY was previously licensed for operation on 930 kHz with 5 kW day (ND) and night (DA), and BP-20160610AAX authorizes use of the existing daytime ND antenna at night using a reduced power level.

20160610AAX. RLHC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR §1.1310.

This authority expires on **July 6, 2017**.

Sincerely,

Joseph Szczesny, Engineer
Audio Division
Media Bureau
