Re: BDJ Radio Enterprises, LLC (BRE)
KXEN(AM), St. Louis, MO
Facility Identification Number: 54739
Special Temporary Authorization (STA)
BESTA- 20161230AAQ

Dear Mr. Kaufman:

This is in reference to the request filed on December 30, 2016. BRE requests a further extension of the STA granted on July 23, 2012, to continue operating with temporary nighttime facilities at an alternate site due to development of part of the licensed site, and the proposed sale of the remaining portion of the site.¹ In support of the request, BRE states that additional time is needed to file the required FCC Form 301 application to propose a permanent facility after final action has been taken on the proposed rules mentioned in MB Docket 13-249.²

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and station KXEN(AM) may continue to operate using the licensed daytime 50 kW DA facilities and at

¹ KXEN(AM) is licensed for DA operation on 1010 kHz with 50 kW day and 0.5 kW night.

² See *Revitalization of the AM Radio Service*, First Report and Order, Further Notice of Proposed Rule Making, and Notice of Inquiry, FCC 15-142 (rel. Oct. 23, 2015).

night with the following temporary site facilities:

Geographic coordinates:	38° 38' 09" N, 90° 11' 45" W (NAD 1927)
Frequency:	1010 kHz
Operating hours:	Nighttime
Operating power:	0.125 kW nighttime
Antenna:	74.2 m vertical wire supported on face of a self-supporting tower located at the KDNL(TV) studios
Radiator height:	90°
ASRN:	1003524

It will be necessary to further reduce power or cease operation if complaints of interference are received. BRE must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. BRE must file the required 301 application after final action on MB Docket 13-249 has been taken to show that substantial progress has been made.

This authority expires on **July 23, 2017**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Szczesny', with a stylized, looping design.
