Re: KVNA (AM), Flagstaff, Arizona  
Facility Identification Number: 68567  
Yavapai Broadcasting Corporation  
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed September 14, 2006, on behalf of Yavapai Broadcasting Corporation ("YBC"). YBC requests extension of the special temporary authority ("STA") granted on March 17, 2006, to operate Station KVNA with emergency antenna facilities pursuant to Section 73.1680.<sup>1</sup> In support of the request, YBC states that it has located a new site for the station and is in the process of obtaining the necessary local permits.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation. Thus, extension of STA is warranted.

Accordingly, the request for STA IS HEREBY GRANTED. Station KVNA may continue to operate with the following facilities:

Geographic coordinates:	35° 13' 43" N, 111° 34' 05" W (NAD 1927)
Frequency:	600 kHz
Hours of operation:	Unlimited
Operating power:	Not to exceed 1 kW daytime, 0.048 kW nighttime

---

<sup>1</sup> KVNA is licensed for operation on 600 kHz with 1 kilowatt daytime and 0.048 kilowatt nighttime, employing a nondirectional antenna (ND-1-U).

Antenna

Long wire

It will be necessary to reduce power or cease operation if complaints of interference are received. YBC must notify the Commission when licensed operation is restored.<sup>2</sup> YBC must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **February 7, 2008**.

Sincerely,

A handwritten signature in black ink, appearing to read "Charles N. Miller", with a stylized flourish at the end.

Charles N. Miller, Engineer  
Audio Division  
Media Bureau

cc: Yavapai Broadcasting Corporation
