Re: Radio License Holding SRC LLC (RLH)
KTCK(AM), Dallas, TX
Facility Identification Number: 8773
Special Temporary Authority (STA)
BESTA- 20170130ADA

Dear Mr. Denning:

This is in reference to the request filed on January 30, 2017. RLH requests a further extension of the STA granted on November 27, 2013, to continue operations with parameters at variance due to repairs and the required FCC Form 302 application to update all operating parameters.¹ In support of the request, RLH states that additional time is needed to file the application due to the planned relocation of station KLIF(AM) to the KTCK transmitter site based upon BP-20160707AAZ.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and RLH may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. RLH must use whatever means are necessary to protect

¹ KTCK(AM) is licensed for DA operation on 1310 kHz with 25 kW daytime and 5 kW night.

workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **August 17, 2017**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a smaller, more complex set of loops and a final flourish.
