In Re: WZAT(FM), Savannah, GA
Facility ID No.: 25549
Cumulus Licensing LLC
BPH-20070516ABA

Dear Applicant:

This letter refers to the above-captioned minor change application to change from directional to non directional antenna.

This application was filed 2 days after application BPH-20070514ASN for WPNG (Facility ID. No. 78442), Pearson, GA and conflicted with the earlier filed application. Under the Commission's processing system for FM commercial minor change applications, FM commercial minor change applications are processed on a first come / first served basis. Later filed applications are "held in queue" behind the first-filed or lead application.¹ If the lead application is granted, the queue is dissolved and the queue applications are dismissed; if the lead application is dismissed, then the first queue application (the application filed closest in time after the lead application) is processed.

In the present instance, the staff granted the lead application BPH-20070514ASN on July 23, 2007. As a result, the first come/first served queue is dissolved. Application BPH-20070516ABA, as a part of that queue, IS DISMISSED.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
Media Bureau

cc: Mark N. Lipp, Esq.

¹ See the *Report and Order* in MM Docket 84-750, 50 FR 19936 (May 13, 1985). All FM commercial minor change applications filed after the close of the "universal window" (June 13, 1985 to July 12, 1985) are treated on a first come / first served basis.
