Re: Lotus Sacramento Corp.  
KMJE(AM), Olivehurst, California  
Facility ID No. 160999  
FCC File No: BP-20160330AAB  
License Application: BMML20170320ANW  
Program Test Authority

Dear Counsel:

This letter is in reference to the above-captioned license application and your request for program test authority ("PTA") for the nighttime operation of station KMJE(AM). Station KJME(AM) was granted a construction permit (BP-20160330AAB) to relocate its nighttime operation over to its licensed daytime transmitter site. Our initial review of the license application (BMML-20170320ANW) revealed deficiencies, however KMJE(AM) has addressed the issues in an amendment which we received on April 5, 2017.

Authority is granted KMJE(AM) to conduct program tests in accordance with its construction permit (BP-20160330AAB) and Section 73.1620 of the Commission's rules on 890 kHz with a nighttime nominal power of 0.27 kilowatt. Program tests are authorized with a nighttime antenna input power of 0.2916 kilowatt (common point current of 2.41 amperes) and with antenna monitor parameters shown on Form 302-AM.

Sincerely,

  
Jerome J. Manarchuck
