Re: CBS Radio Stations, Inc.
WMC (AM), Memphis, Tennessee
Facility Identification Number: 19185
Special Temporary Authority

Dear Mr. Nass:

This is in reference to the request filed November 6, 2006, on behalf of CBS Radio Stations, Inc. ("CBS"). CBS requests extension of the special temporary authority ("STA") granted on August 3, 2006, to operate Station WMC with parameters at variance and/or reduced power while maintaining monitor points within licensed limits.¹ In support of the request, CBS states that it has discovered a problem in the station's sampling system and is working to resolve the problem.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WMC may

¹ WMC is licensed for operation on 790 kHz with 5 kilowatts daytime and 5 kilowatts nighttime, employing a directional antenna during nighttime hours only (DA-N-U).

continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. CBS must notify the Commission when licensed operation is restored.² CBS must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **November 27, 2007**.

Sincerely,

Charles N. Miller, Engineer
Audio Division
Media Bureau
