A copy of this e-mail will be posted in the FCC's CDBS database under the file number above. Please retain a copy of this authorization for your records.

****Please note, unless we hear otherwise from the licensee about this matter, we will plan to re-issue the license BLFT-20140915AAD, on July 5, 2017, to specify 52 watts, as provided in this authorization.*****

Considerations:

Licensee must take all steps to ensure that workers and the public are not exposed to radiofrequency exposure in excess of the Commission's exposure limit.

Reduced power STA requests, or extensions thereof, are filed as "Engineering STA", NOT "Legal STA". Incorrect filing results in delays in processing.
