6. Antenna and ground system: Uniform cross section, guyed, shunt excited vertical radiator.
Overall height: 199'. Height of Radiator: 199', 0.2509 wavelength. Ground system consists of 120 buried copper wire radials 200' in length. Estimated radiation per kilowatt: 305.77 mV/m at one kilometer.

7. Obstruction marking and lighting specifications — FCC Form 715, paragraphs: 1, 3, 12 & 21.

8. Frequency (kHz.): 1240

9. Nominal power (kW): 1.0 Day
0.25 Night

Antenna input power (kW): 1.0 Day
0.25 Night
 Non-directional antenna: current 4.05 amperes; resistance 61 ohms.
 Directional antenna : current _____ amperes; resistance _____ ohms.

Non-directional antenna: current 2.05 amperes; resistance 61 ohms.
 Directional antenna : current _____ amperes; resistance _____ ohms.

previous authorization.

10. Hours of operation: Specified in
11. Conditions:

Licensee shall accept such interference as may be imposed by other existing 250 watts Class IV stations in the event that they are subsequently authorized to increase power to 1000 watts.

The Commission reserves the right during said license period of terminating this license or making effective any change, or modification of this license which may be necessary to comply with any decision of the Commission rendered as a result of any hearing held under the rules of the Commission prior to the commencement of this license period or any decision rendered as a result of any such hearing which has been designated but not held, prior to the commencement of this license period.

This license is issued on the licensee's representation that the statements contained in licensee's application are true and that the undertakings therein contained so far as they are consistent herewith, will be carried out in good faith. The licensee shall, during the term of this license, render such broadcasting service as will serve public interest, convenience, or necessity to the full extent of the privileges herein conferred.

This license shall not vest in the licensee any right to operate the station nor any right in the use of the frequency designated in the license beyond the term hereof, nor in any other manner than authorized herein. Neither the license nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934, as amended. This license is subject to the right of use or control by the Government of the United States conferred by Section 806 of the Communications Act of 1934, as amended.
