Gentlemen:

The Commission notes the pendency of your application for license to cover construction permit, File No. BL-800212AJ, covering BP-20,171.

In light of that application, the above-referenced, earlier application for direct measurement of power on your former frequency is moot, and is hereby dismissed.

Sincerely,

Larry W. Olson  
Chief, AM Branch  
Broadcast Facilities Division  
Broadcast Bureau
