Modification No. 1

MODIFICATION OF LICENSE

AM

(Class of station)

Licensee: SWANSON BROADCASTING, INC.

Station location: New Orleans, Louisiana

Associated Broadcast Station:

The Authority Contained in Authorization File No. BR-790201XU dated 5-18-79
granted to the Licensee listed above is hereby modified in part as follows:

Common point current 4.65 amperes for directional operation day.
Common point resistance 50 ohms for directional operation day.

This modification of license shall be attached to and be made a part of the license of this station.

Except as herein expressly modified, the above-mentioned license, subject to all modifications heretofore
granted by the Commission, is to continue in full force and effect in accordance with the terms and conditions
thereof and for the period therein specified.

FEDERAL
COMMUNICATIONS
COMMISSION

FEDERAL COMMUNICATIONS COMMISSION
WASHINGTON, D.C. 20554
June 16, 1986

ORDER TO SHOW CAUSE - REVISED PARAMETERS

Unless you object, the license of station WSHO, NEW ORLEANS, LA, will be modified pursuant to Section 316(a) of the Communications Act of 1934, as amended, to specify nighttime operation. This will permit you to operate at night with a nominal power of 233.4 watts.
(Instructions for calculating the actual operating power are enclosed.)

IF YOU AGREE TO THIS MODIFICATION, it will be necessary to send the required notification to the Commission before nighttime operation can begin. The instructions for this are set forth on the enclosed instruction sheet.

OPERATION CANNOT BEGIN UNTIL THE NEW AM AGREEMENT WITH MEXICO IS IMPLEMENTED. That date will be announced later.

IF YOU OBJECT TO THIS MODIFICATION you may, pursuant to SECTION 1.87 of the Commission's Rules, request that a hearing be held on the proposed modification or file a written statement in opposition to the modification proposed in this Order to Show Cause. In such case, the Commission will conclude that Station WSHO does not wish to have nighttime operation, and the station license will not be so modified. Instead, it will retain its current daytime-only authorization.

----- THE DEADLINE FOR FILING SUCH AN OBJECTION IS July 30, 1986. -----

PLEASE NOTE: In the event the Commission receives no written opposition to the proposed modification, the right to a hearing will be considered to have been waived, and the licensee of Station WSHO will be deemed to have consented to the modification. In such case, the station must begin nighttime operation within a year after the Mexican Agreement is implemented and must be conducted in compliance with the rules applicable to such operation.

ORDER TO SHOW CAUSE

Unless you object, the license of station WSHO, NEW ORLEANS, LA, will be modified pursuant to Section 316(a) of the Communications Act of 1934, as amended, to specify nighttime operation. This will permit you to operate at night with a nominal power of 498.2 watts.
(Instructions for calculating the actual operating power are enclosed.)

IF YOU AGREE TO THIS MODIFICATION, it will be necessary to send the required notification to the Commission before nighttime operation can begin. The instructions for this are set forth on the enclosed instruction sheet.

OPERATION CANNOT BEGIN UNTIL THE NEW AM AGREEMENT WITH MEXICO IS IMPLEMENTED. That date will be announced later.

IF YOU OBJECT TO THIS MODIFICATION you may, pursuant to SECTION 1.87 of the Commission's Rules, request that a hearing be held on the proposed modification or file a written statement in opposition to the modification proposed in this Order to Show Cause. In such case, the Commission will conclude that Station WSHO does not wish to have nighttime operation, and the station license will not be so modified. Instead, it will retain its current daytime-only authorization.

----- THE DEADLINE FOR FILING SUCH AN OBJECTION IS July 15, 1986. -----

PLEASE NOTE: In the event the Commission receives no written opposition to the proposed modification, the right to a hearing will be considered to have been waived, and the licensee of Station WSHO will be deemed to have consented to the modification. In such case, the station must begin nighttime operation within a year after the Mexican Agreement is implemented and must be conducted in compliance with the rules applicable to such operation.

*As indicated by News-Clarke 108-C Antenna Monitor

Field intensity measuring equipment shall be available at all times and the field intensity at each of the monitoring points shall be measured at least once every thirty days and an appropriate record kept of all measurements so made.

DESCRIPTION OF AND FIELD INTENSITY AT MONITORING POINTS:

Point #1, direction of 205° true North. From transmitter proceed East for approximately 0.15 mile to road, thence left for 0.4 mile to Louisiana No. 30, thence left on Louisiana No. 30 for approximately 1.5 mile to stake on East side of road, thence East to stake by small tree. Measure by stake. The field intensity measured at this point should not exceed 82.4 mv/m DAYTIME.

Point #2, direction of 245° true North. From transmitter proceed East for approximately 0.15 mile to road, thence left for 0.4 mile to Louisiana No. 30, thence left on Louisiana No. 30 for approximately 1.05 mile to stake on West side of road, thence West to stake at tree line. Measure by stake. The field intensity measured at this point should not exceed 45 mv/m DAYTIME.

The authority herein granted is subject to the following condition:

That equipment shall be operated with particular care that harmonic and spurious radiation products be maintained at the lowest possible level and in the event of interference to Navy Radio Facilities, the licensee agrees to adopt whatever further measures are necessary to eliminate the interference and to otherwise cooperate fully with the Navy Department in correcting the trouble.
