FEDERAL COMMUNICATIONS COMMISSION

¹ This license consists of this page and pages Dated: AUG 2 2 1990

THE AUTHORITY GRANTED IS SUBJECT TO THE FOLLOWING CONDITIONS:

In the event construction is completed on AM Stations KBNA and KELP:

Prior to construction of the tower authorized herein, Licensee shall notify AM Stations KBNA and KELP so that, if necessary that AM station: may determine operating power by a method described in Section 73.51(a)(1) or (d), and/or request temporary authority from the Commission in Washington, D.C. to operate with parameters at variance in order to maintain monitoring point field strengths within authorized limits. Licensee shall be responsible for installation and continued maintenance of detuning apparatus necessary to prevent adverse effects upon the radiation pattern of the AM station. Both prior to construction of the tower and subsequent to the installation of all appurtenances thereon, a partial proof of performance, installation of all appurtenances thereon, a partial proof of performance, as defined by Section 73.154(a) of the Commission's Rules, shall be conducted to establish that the AM array has not been adversely affected and, prior to or simultaneous with the filing of the application for license to cover this permit, the results submitted to the Commission.

The proponent agreed to the following conditions by letter dated July 25, 1989:

- 1. Maintain all spurious (in-band) radiation equal or less than $-82.5~{\rm dbm}$, as measured at the output of the transmitter.
- 2. Upon receipt of notification from the Federal Communications Commission (FCC) that harmful interference is being caused by the licensee's transmitter, the licensee shall either immediately reduce the power to the point of no interference, cease operations, or take such immediate corrective action as necessary to eliminate the harmful interference. This condition expires after one year of interference-free operation.
