Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility is not consistent with existing data in the antenna structure registration database.

Your application lists antenna ASRN # 1017926 with antenna location site elevation above mean sea level (ALSEAMSL) as 391.6 meters. However, ASRN # 1017926 lists the elevation of site above mean sea level as 255.7 meters. These values must be consistent with each other for grant.

You are hereby given the opportunity to file a minor amendment to resolve these specified problems within (30) days from the date of this letter. Your amendment must be filed electronically. If not so amended, your application will be considered incomplete and subsequently dismissed.

Sincerely

Hossein Hashemzadeh
Associate Chief
