Re: A Radio Company, Inc. (ARC)
WEGA (AM), Vega Baja, PR
Facility Identification Number: 69853
Special Temporary Authority (STA)
BESTA-20170427AAE

Dear Mr. Angulo:

This is in reference to the request filed on April 27, 2017. ARC requests a further extension of the STA originally granted on October 29, 2004, to continue ND operation pending further action on BP-20170427AAE to propose a new permanent facility at the licensed site.¹ In support of the request, we noted that BP-20170427AAE remains pending at this time.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and ARC may continue to operate ND using a maximum of 0.625 kW. It will be necessary to further reduce power or cease operation if complaints of interference are received. ARC must use whatever

¹ WEGA is licensed for DA operation on 1350 kHz with 2.5 kW (day and night).

means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **December 5, 2017**.

Sincerely,

Joseph Szczesny, Engineer
