Re: Townsquare Media Licensee  
of Utica/Rome, Inc.  
WIBX(AM), Utica, NY  
Facility ID Number: 168  
File Number: BMML-20161115ACX

Dear Applicant:

This is in reference to the above-captioned application to re-license WIBX(AM) under the method of moment rules.

A preliminary engineering study of the application reveals the following deficiencies:

1. Segment length is not uniform in the model. There are four segment lengths measuring 23.3 feet, 20.0 feet, 12.5 feet and 15.4 feet each. Creating a good model requires equal length segments.
2. The accuracy of the current transformer as provided by the manufacturer and the measurements to show that the current transformers are in agreement with that accuracy were not provided.
3. The radiation pattern null reference measurements on the 227° bearing was not provided. Was there a typographical error on the 277° bearing?

Further action on the subject application will be withheld for thirty (30) days from the date of this letter in order to provide you an opportunity to file a curative amendment. The amendment must be submitted in the same manner as the original application. Failure to respond or file an amendment within this time period will result in the dismissal of the application pursuant to Section 73.3568 of the rules.

Sincerely,

Son Nguyen,  
Supervisory Engineer  
Audio Division  
Media Bureau
