Resumption of Licensed Operations

Dear Staff:

Calvary Chapel of Twin Falls, Inc.(CCTF) respectfully notifies the Commission that KIMW Heflin LA, Facility ID 191575, which has been operating at reduced power, resumed normal operations on the afternoon of June 6, 2017 when CCTF's contract engineer was able to reinstall the repaired part and perform a meter calibration.

Calvary Chapel of Twin Falls, Inc. respectfully requests BSTA-20170412AAC, granted 4/13/17, be dismissed. Thank you.

Sincerely,

Lois Mills

Special Temporary Authority For a Radio Broadcast Station

Reduced Power Operation

Audio Division, Media Bureau

Date: April 13, 2017
File Number: BSTA-20170412AAC
Call Sign: KIMW (FM)
Facility ID Number: 191575

For the reasons provided in the application request, Special Temporary Authority IS GRANTED for continued operation of the station above at reduced power, as needed. The licensee must notify the Commission when licensed operation resumes. See 47 CFR Section 73.1560(d).

This STA authority expires **October 10, 2017**.

Senior Electronics Engineer

A copy of this e-mail will be posted in the FCC's CDBS database under the file number above.
Please retain a copy of this authorization for your records.

Considerations:

Licensee must take all steps to ensure that workers and the public are not exposed to radiofrequency exposure in excess of the Commission's exposure limit.

Requests for extension of STA may be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Reduced power STA requests, or extensions thereof, are filed as "Engineering STA", NOT "Legal STA". Incorrect filing results in delays in processing.
