Re: Cancellation of Construction Permit No. BPED- 20140128ADN
Radio Station WZUM-FM
Bethany, West Virginia
Pittsburgh Public Media

Dear Ms. Dortch:

On behalf of Pittsburgh Public Media, licensee of Radio Station WZUM-FM, Bethany, West Virginia, I am herewith submitting an original and two (2) copies of a request by the licensee/permittee to cancel the above-referenced Construction Permit to modify the station's facilities. A copy of the Construction Permit is attached. The licensee/permittee, regrettably, has been unable to find the original, signed Construction Permit.

Should any questions arise with respect to this matter, please contact the undersigned counsel.

Respectfully submitted,

By 
Allan G. Moskowitz

Re: Cancellation of Construction Permit

Dear FCC Secretary:

This will respectfully request the cancellation of Construction Permit
No. BPED- 20140128ADN to modify the facilities Radio Station WZUM-FM,
Bethany, West Virginia.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'Charles H. Leavens', written over the typed name.

Media Bureau

Facility ID: 4954

Call Sign: WZUM-FM

Permit File Number: BPED-20140128ADN

Grant Date: July 03, 2014

This permit expires 3:00 a.m.
local time, 36 months after the
grant date specified above.

This authorization is re-issued April 20, 2016, to reflect the grant of a
Main Studio Satellite Waiver see (Special Operating Condiiton #7)

Subject to the provisions of the Communications Act of 1934, as amended,
subsequent acts and treaties, and all regulations heretofore or hereafter
made by this Commission, and further subject to the conditions set forth
in this permit, the permittee is hereby authorized to construct the radio
transmitting apparatus herein described. Installation and adjustment of
equipment not specifically set forth herein shall be in accordance with
representations contained in the permittee's application for construction
permit except for such modifications as are presently permitted, without
application, by the Commission's Rules.

Commission rules which became effective on February 16, 1999, have a
bearing on this construction permit. See Report & Order, Streamlining of
Mass Media Applications, MM Docket No. 98-43, 13 FCC RCD 23056, Para.
77-90 (November 25, 1998); 63 Fed. Reg. 70039 (December 18, 1998).
Pursuant to these rules, this construction permit will be subject to
automatic forfeiture unless construction is complete and an application
for license to cover is filed prior to expiration. See Section 73.3598.

Equipment and program tests shall be conducted only pursuant to Sections
73.1610 and 73.1620 of the Commission's Rules.

Callsign: WZUM-FM

Permit No.: BPED-20140128ADN

Name of Permittee: PITTSBURGH PUBLIC MEDIA

Station Location: WV-BETHANY

Frequency (MHz): 88.1

Channel: 201

Class: B1

Hours of Operation: Unlimited

Transmitter: Type Accepted. See Sections 73.1660, 73.1665 and 73.1670 of the Commission's Rules.

Transmitter output power: As required to achieve authorized ERP.

Antenna type: Directional

Antenna Coordinates: North Latitude: 40 deg 12 min 58 sec
West Longitude: 80 deg 33 min 31 sec

	Horizontally Polarized Antenna	Vertically Polarized Antenna
Effective radiated power in the Horizontal Plane (kW):	10.0	10.0
Height of radiation center above ground (Meters):	85	85
Height of radiation center above mean sea level (Meters):	457	457
Height of radiation center above average terrain (Meters):	125	125

Antenna structure registration number: 1035124

Overall height of antenna structure above ground (including obstruction lighting if any) see the registration for this antenna structure.

Special operating conditions or restrictions:

- 1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Special operating conditions or restrictions:

2 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee shall submit the results of a complete proof-of-performance to establish the horizontal plane radiation patterns for both the horizontally and vertically polarized radiation components. This proof-of-performance may be accomplished using the complete full size antenna, or individual bays therefrom, mounted on a supporting structure of identical dimensions and configuration as the proposed structure, including all braces, ladders, conduits, coaxial lines, and other appurtenances; or using a carefully manufactured scale model of the entire antenna, or individual bays therefrom, mounted on an equally scaled model of the proposed supporting structure, including all appurtenances. Engineering exhibits should include a description of the antenna testing facilities and equipment employed, including appropriate photographs or sketches and a description of the testing procedures, including scale factor, measurements frequency, and equipment calibration.

3 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee must submit a certification executed by a licensed surveyor showing that the FM directional antenna system has been oriented at the azimuth(s) specified in the directional antenna proof of performance. This certification must include a description of the method used by the surveyor to determine the azimuth(s) of the installed directional antenna system and the accuracy of that determination.

4 BEFORE PROGRAM TESTS ARE AUTHORIZED, permittee/licensee shall submit an affidavit that the installation of the directional antenna system was overseen by a qualified engineer. This affidavit shall include a certification by the engineer that the antenna was installed pursuant to the manufacturer's instructions and list the qualifications of the certifying engineer.

5 BEFORE PROGRAM TESTS ARE AUTHORIZED, the permittee must submit an exhibit demonstrating that the measured directional antenna pattern complies with the appropriate community coverage provisions of 47 C.F.R. Sections 73.315 or 73.515 (See 47 C.F.R. Section 73.316(c) (2) (ix) (B)).

6 The relative field strength of neither the measured horizontally nor vertically polarized radiation component shall exceed at any azimuth the value indicated on the composite radiation pattern authorized by this construction permit.

A relative field strength of 1.0 on the composite radiation pattern herein authorized corresponds to the following effective radiated power:

10 kilowatts.

Principal minima and their associated field strength limits:

170 to 180 degrees True: .78 kilowatts

7 Pittsburgh Public Media requests waiver of 47. C.F.R. Section 73.1125 to operate the proposed facility as "satellite" of co-owned noncommercial educational AM station WZUM (AM), Braddock, Pennsylvania, (Facility ID No.: 68903). Based upon the specific representations contained therein, the waiver request IS GRANTED. Applicant shall abide by each representation proffered in the waiver request.

*** END OF AUTHORIZATION ***
