File No. BPL-20170712AAD

Dear Applicant:

The staff has under consideration the above-captioned minor modification application.

An engineering study has revealed that the proposed transmitter site specified in the application fails to meet the minimum spacing requirements of 47 C.F.R. § 73.807. Specifically, the site proposed is located 22.4 kilometers from the authorized facility of KMFE-LP on channel 245L1 in Menifee, CA (BNPL-20131112BFI). The required spacing pursuant to § 73.807 is 24 kilometers. The application fails to address this defect.

Accordingly, in light of the above, application BPL-20170712AAD is unacceptable for filing and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283 and 73.870(c).

Sincerely,
