Subject: RE: Emergency STA Authority -KABX-FM, Merced, California-follow-up to my voicemail message of 7/21/17

Based on what's in the draft request, and as we wouldn't expect the final parameters to change much from these values, we have no objection to KABX putting the emergency facilities on the air as soon as they are ready. This e-mail will provide Special Temporary Authority for such operation, until I can more formally approve it once the request is in the system on Monday.

Dale,

I've attached a draft copy of the STA request—it's been sent to the client and I'm just waiting on their approval to submit.

Thanks for any assistance you can provide.

Laurie

When you get the details, send them to me via e-mail and I will see what we can do. Dale Bickel dale.bickel@fcc.gov

Importance: High

Hi Dale,

We have a client in Merced, CA who lost their transmitter to a wildfire on Tuesday. They are frantically trying to put together an STA to get back on the air until such time as they are permitted by the government to access their transmitter location so they can assess the damage.

If we are able to get an STA on file today, once it's submitted and the fee paid (done by credit card) is there any way we can send a copy to you or to someone with authority to review and grant? They are desperately trying to get back on-air so they aren't silent over the weekend as well.

Thanks.

Laurie
