Special Temporary Authority (STA)
BESTA- 20170707AAE

Dear Mr. Martin:

This is in reference to the request filed on July 7, 2017. SEB requests a fourth extension of the STA granted on May 13, 2015, to operate with parameters at variance to allow time to file the required FCC Form 302 application for a new license.¹ In support of the request, we anticipate that SEB will file the application in the near future.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED, and SEB may continue to operate with parameters at variance and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. SEB must use whatever means are necessary to protect

¹ KWWJ(AM) is licensed for DA operation on 1360 kHz with 5 kW day and 1 kW night, and BP-20160818AAE authorizes a correction in height, coordinates, and a reduction in nighttime power.¹

This authority expires on **February 8, 2018**.
