Facility Identification Number: 48731  
Special Temporary Authorization (STA)  
BESTA-20170818AAO

Dear Mr. Henderson:

This is in reference to the request filed on August 18, 2017. PMA requests a further extension of the STA granted on July 28, 2010, to continue to operate with increased nighttime power to overcome interference from CMBD, La Habana, Cuba.<sup>1</sup> In support of the request, PMA confirmed that the interference continues.

Accordingly, the request for extension of the STA is GRANTED, and PMA may continue to operate with a maximum night nominal power of 10 kW (with no change to the licensed daytime operation). It will be necessary to reduce power or cease STA operations if complaints of interference are received. PMA must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. This authority will terminate automatically upon cessation of operation of the Cuban station or by Commission notice to PMA to resume licensed nighttime operations.

This authority expires on **March 21, 2018**.

Sincerely,

Joseph Szczesny, Engineer  
Audio Division  
Media Bureau
