Re: Eternity Records, LLC (ER)
WABF(AM), Fairhope, AL
Facility Identification Number: 32848
Special Temporary Authority (STA)
BESTA-20170824AAX

Dear Mr. Pugh:

This is in reference to the request filed on August 24, 2017. ER requests an extension of the STA granted on April 14, 2016, to continue operating using one of the WERM(AM) towers pending the filing of the required FCC Form 301 application to propose a new permanent facility at the site (due to loss of the licensed site).¹ In support of the request, we note that ER has not yet filed the application.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and ER may continue to operate with the following facilities:

Geographic coordinates	30° 43' 11 "N, 88° 04' 16"W (NAD 1927)
Frequency	1220 KHz
Hours of operation	Daytime only

¹ WABF(AM) is licensed for ND operation on 1220 kHz with 1 kW day and 0.03 kW night.

Operating power	Maximum of 0.25 kW
Antenna type	Existing WERM(AM) tower
Electrical height of radiator	76.2°
Overall height	52 meters

It will be necessary to further reduce power or cease operation if complaints of interference are received. ER must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47CFR 1.1310. We anticipate that ER will be able to file the 301 application in the upcoming months since already operating from one of the existing WERM towers.

This authority expires on **March 26, 2018**.

Sincerely,

Joseph Szczesny, Engineer
