Re: Short Term Reduced Power Operation KBUY-AM

Gentlemen:

Pursuant to rule 73.1560(d) this is notification that KBUY-AM will operate at reduced power for a period not to exceed 30 days, effective 8 August 2017. This is necessitated by damage from 9 lightning strikes received in the last 10 days resulting in extensive damage to power amplifier modules and spares, making it technically impossible to operate at authorized power. Parts acquisition in progress anticipating repairs as soon as practicable.

Sincerely,

Cy Leland

Contract Engineer
