Re: Cumulus Licensing LLC (CLL)  
WOSH(AM), Oshkosh, WI  
Facility Identification Number: 69780  
Special Temporary Authority (STA)  
BESTA-20170925AEB

Dear Mr. Denning:

This is in reference to the request filed on September 25, 2017. CLL requests an extension of the STA granted on March 30, 2017, to continue operating with reduced power pending the installation of a new transmitter.<sup>1</sup> In support of the request, CLL states that additional time is needed to complete the installation.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

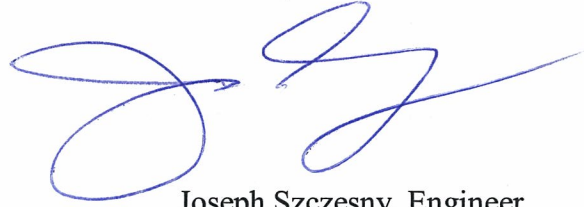

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and CLL may continue to operate with reduced power. CLL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310. CLL must submit an e-mail to my attention before the expiration date shown below to verify the date the station resumed licensed operations (per BML-20091007ADU) with negligible changes to all operating parameters.

---

<sup>1</sup> WOSH(AM) is licensed for ND operation on 1490 kHz with 1 kW (day and night).

This authority expires on **April 30, 2018**.

Sincerely,

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by 'Sz' and a long horizontal flourish.

Joseph Szczesny, Engineer  
Audio Division
