BMLH-20081022ACH

WTNX(FM), Lawrenceburg, TN
Facility ID No.: 27422
Radio7Media, LLC
BPH-20170627AAJ

Dear Licensee:

In accordance with procedures adopted by the Commission, this letter constitutes notification to Cumulus Licensing LLC ("CLL") of the filing of the above captioned minor change construction permit application (BPH-20170627AAJ) by Radio7Media, LLC ("R7M"), permittee of station WTNX(FM), Lawrenceburg, TN. R7M's application requested that WZYP's license be modified to specify Class C0 in lieu of Class C in accordance with the procedures set forth in Note 4 of 47 C.F.R. Section 73.3573.¹

The staff has tentatively concluded that R7M's application meets the requirements of Section 73.3573, Note 4 and is otherwise acceptable for filing.² Accordingly, IT IS ORDERED, that pursuant to Section 316(a) of the Communications Act of 1934, as amended, 47 U.S.C. Section 316(a), and pursuant to Section 1.87 of the Commission's Rules, CLL SHALL SHOW

¹ See 1998 Biennial Regulatory Review—Streamlining of Radio Technical Rules in Parts 73 and 74 of the Commission's Rules, Second Report and Order in MM Docket No. 98-93, FCC 00-368 15 FCC Rcd 21649 (2000).

² In order to be considered in compliance with Note 4, the triggering application must: 1) be short-spaced to the Class C station, but be fully spaced if it were a Class C0; 2) include a certification that no alternative channel is available at the proposed location without any other changes to the table of allotments; and 3) be served on the licensee of the affected Class C station.

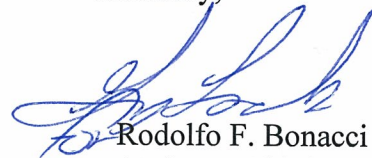

CAUSE why its license SHOULD NOT BE MODIFIED, to specify Channel 282C0 in lieu of Channel 282C.

CLL may, not later than 30 days from the date of this letter, file a written statement to express its intention to seek authority to modify Station WZYP's technical facilities to attain minimum Class C HAAT; or, alternatively, as provided for by Note 4 cited above, otherwise challenge the triggering application. If no such intention is expressed and the triggering application is not challenged, WZYP's license will be reclassified as a Class C0 station.

If CLL chooses to seek authority to modify WZYP's facilities, an acceptable application for a construction permit to increase the antenna height to at least 451 meters HAAT must be on file with the Commission 180 days subsequent to the show cause response due date. Failure to file a construction permit application within this time period will result in the automatic downgrade of WZYP's licensed facilities.² Furthermore, CLL must serve R7M with copies of any FAA submissions related to its efforts to modify the WZYP facility.

Further action on the subject application will be withheld for thirty days from the date of this letter to provide an opportunity to reply. Failure to respond to this letter will result in the automatic downgrade of WZYP's license pursuant to Note 4 of § 73.3573. Please note that responses must be submitted to the Secretary of the Commission in triplicate and must be served on all parties.

Sincerely,

Rodolfo F. Bonacci
Assistant Chief
Audio Division
Media Bureau

² Failure to build pursuant to the subsequently authorized construction permit will also result in the automatic downgrade of WZYP's licensed facilities.
