

**Mr. Allen Myers**  
Industry Analyst  
Media Bureau  
Federal Communications Commission

September 26, 2005

Dear Mr. Myers,

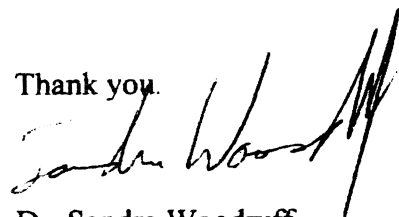

I am pleased to inform the Commission on behalf of Sam-Sno Educational Media that radio station KCFL-LP, Fall City, WA; **BNPL 20010613AGQ** went on the air on April 13, 2005 under automatic program test authority.

It is in operation under all specifications of the Construction Permit.  
I ask that the outstanding application for a license to cover be put into active status.

This notice is sent as backup notification, since it appears that On Air notification has not been entered into the FCC database. If this is a redundant filing, please excuse my error.

If you need backup information, please contact me.

Thank you.
