Cc: Robin Lott <Robin.Lott@fcc.gov>

Good afternoon Bryon,

I am not sure if Ms. Lott informed you that the tower height on the construction permit authorization is 47.8 meters and on the license application is 57 meters. According to Section 73.1690 of the rules, you cannot change the tower height by 2 meters up and 4 meters down. In this case, I will dismiss your license application, and you need to file another construction permit for the new tower height.

Thanks,

Nazifa

Dear Ms Lott

the tower height listed on the Construction Permit BL-20161129AHF are Correct to what is there for the tower for WNWF AM the current height is 60.6 meters which is correct

Also in the future please use the following email for communicaitons with me the other emails are dead and not in use anymore

bryancovey@khobradio.com

if you need anything else please let me know

thanks
